

NEP Film Supply Program

You may be wondering...

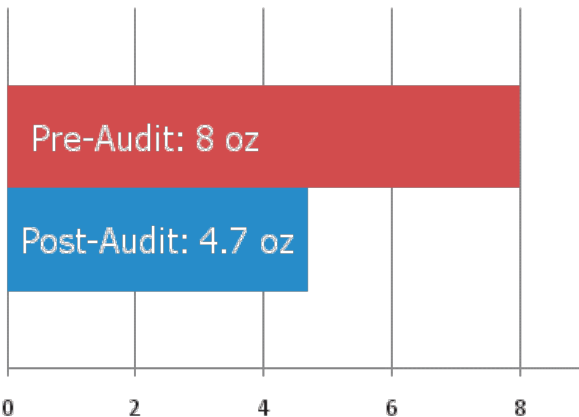

“My Stretch wrapper is working just fine. My Shipments get wrapped and delivered with little or no damage. My pricing is good...

How are you going to save me money?

New England Packaging understands that, to obtain “maximum film mileage”, your wrapper needs to be audited for performance regularly. Film purchases are tied to regular visits by an NEP film representative who will audit your current system for film and system efficiency. New wrappers may be rated at 250% pre-stretch but will soon start to wear with usage and lose efficiencies. **At New England Packaging, we believe a film will perform only as well as the system it is running on.”**

Ounces Used per Load

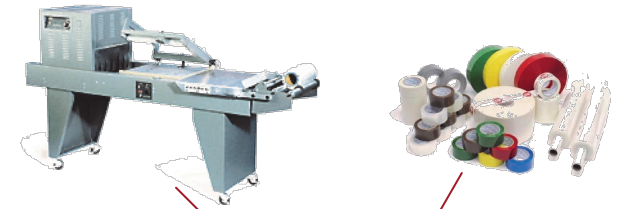

Since 1972 New England Packaging has developed strong partnerships with all of the leaders in the Packaging Industry.

As a full service—full line distributor of the best equipment & supply manufacturers, we have the experience and commitment to provide you with solutions to your packaging and shipping problems.

Whether you are a company of one employee who uses a case of tape a month or a company of thousands who purchases by the truckload, we pride ourselves on providing you with the most cost effective solutions.

Our Goal is to Provide you with the Best Quality—Price—Response and Service!
